A message to Parents

Dear Parents,

Summer time is fun time for all the children as well as parents as it enables you to spend quality time with your child. I hope you all are getting plenty of time to spend with your tiny tats. We have planned the activities that will keep the children engaged, help channelize their energy and at the same time improve their concentration, motor skills and promote independent learning.

Kindergarten classes are the classes where kids gain confidence by attaining perfection in both, fine motor skill and gross motor skills. Most of the kids don't face problem with gross motor skills, such as running and jumping- but face difficulty in mastering the fine motor skills such as colouring, sorting, matching and writing. It is important to make sure your child is continually improving these skills. Here are some educational activities to try of home to build up the fine motor control.

Kindly ensure that the holiday home work is completed by the students under the guidance of the parents.

So here we start.....

1) Morning Blessings

Help your child inculcate good habits like doing "Surya Namaskar" and encourage him/her to wish all elders in the morning. If possible, visit a temple or any other religious place of your choice.

2) Physical Development

- Take the child with you for morning/evening walk.
- Play different games like **hide and seek**, **football**, **ludo**, **chess**, **snakes and ladders**, **carrom board** etc. with your child. This will encourage them to express freely and will make them more responsible.

3) Language Development

- Encourage your child to converse in English.
- Choose any 1 object from your surroundings every day. Let the child speak few lines on it. For example: This is an apple 🍏. It is red in colour. It is sweet and juicy. An apple a day keeps the doctor away.
