## **A message to Parents**

Dear Parents,

Summer time is fun time for all the children as well as parents as it enables you to spend quality time with your child. I hope you all are getting plenty of time to spend with your tiny tots. We have planned the activities that will keep the children engaged, help channelize their energy and at the same time improve their concentration, motor skills and promote independent learning.

Kindergarten classes are the classes where kids gain confidence by attaining perfection in both, fine motor skill and gross motor skills. Most of the kids don't face problem with gross motor skills, such as running and jumping- but face difficulty in mastering the fine motor skills such as colouring, sorting, matching and writing. It is important to make sure your child is continually improving these skills. Here are some educational activities to try of home to build up the fine motor control.
